MATTER

DEDICATION

Eben Alexander, Jr., M.D.

Dr. Eben Alexander, Jr. has been a member of the Bowman Gray faculty since 1949. He received his A.B. from the University of North Carolina, Chapel Hill and his M.D. (cum laude) from Harvard Medical School. He is a Fellow of the American College of Surgeons and a Diplomate of the American Board of Neurological Surgery. Dr. Alexander served as Chief of Professional Services at Baptist Hospital from 1953 to 1973. He was Head of the Section on Neurosurgery from 1954 through August 1978.

Dr. Alexander is a member of numerous professional societies and has held many offices within them, including President of the American Association of Neurological Surgeons, President of the American Academy of Neurological Surgery and Vice-President of the American College of Surgeons.

He is an active academician and author with numerous publications to his credit.

Dr. Alexander has served on many important committees within the professional structure of medicine and medical education, among them the Liaison Committee on Medical Education of which he is currently the chairman. He is presently a member of the National Board of Medical Examiners and of the American Medical Association's Committee on Medical Education.

During his years at Bowman Gray, Dr. Alexander has been an inspiration to residents and students. He demonstrates academic achievement and a genuine concern for all people, patients, practitioners, students and non-professional staff. His vitality and love for medicine are both an inspiration and a challenge to the Class of 1983 and we the editors are very pleased to dedicate this yearbook to him.

DEDICATION

Barry T. Hackshaw, M.D.

Dr. Barry Hackshaw has been a member of the Bowman Gray faculty since 1978. He received his B.S. from Wake Forest University and his M.D. from the Bowman Gray School of Medicine. He is a Diplomate of the American Board of Internal Medicine and a Diplomate of the Cardiovascular Disease Section of the American Board of Internal Medicine.

Dr. Hackshaw is active as a researcher and clinician and has authored papers found in a variety of publications.

He is a member of the American College of Physicians, the American Heart Association and an elected Fellow of the American College of Cardiology.

Dr. Hackshaw's career at Bowman Gray has also been influential. He has been honored twice, receiving the Clinical Faculty Teaching Excellence Award in 1979 and the Clinical Teaching Excellence Award in 1980-81.

Dr. Hackshaw demonstrates the qualities of scholarship and concern for patients which we the Class of 1983 hope to emulate. We the editors are happy to dedicate this yearbook to him.

IN MEMORIAM

Lawrence R. DeChatelet, Ph.D.

Dr. Lawrence R. DeChatelet, professor of biochemistry, died June 29, 1982 at his home. He was 41.

Dr. DeChatelet held B.S., M.S. and Ph.D. degrees from Loyola University in Chicago. He took two years of postdoctoral training at Harvard Medical School.

He was internationally known for his research on the metabolism and function of white blood cells and on aberrations of those cells that lead to disease.

In 1975 Dr. DeChatelet received the Award for Teaching Excellence and was a two-time winner of the Basic Science Teaching Award.

Dr. DeChatelet was recognized as a "teacher's teacher" and was highly respected among the faculty and administration.

As he led numerous classes through the maze of biochemistry he was able to inject humor and humanity into his lectures. He was loved by all his students and will be fondly remembered and sorely missed.

IN MEMORIAM

Samuel H. Love, Ph.D.

Dr. Samuel H. Love, associate professor of microbiology, died July 14, 1982 at Baptist Hospital. He was 54.

He was a graduate of Averett College, received the B. A. from the University of Virginia, the M.S. from Miami University and the Ph.D. from the University of Pennsylvania. He took postdoctoral work at the Massachusetts Institute of Technology and was appointed to the Bowman Gray faculty in 1955.

He conducted some of the earliest studies with bacterial DNA. He had been active in research on the biochemical processes involved in chronic lung disease since the mid-1970's. He was also active in the teaching programs for medical and graduate students.

Dr. Love was a member of the American Society for the Advancement of Science and the American Society of Microbiologists.

Dr. Love was a valued and respected member of the faculty and will be remembered by all who were privileged to work and learn under his guidance.

HIPPOCRATIC OATH

"I swear by Apollo the physician . . . to consider dear to me as my parents him who taught me this art; to live in common with him and if necessary to share my goods with him; to look upon his children as my own brothers, to teach them this art if they so desire without fee or written promise; to impart to my sons and the sons of the master who taught me and the disciples who have enrolled themselves and have agreed to the rules of the profession, but to these alone, the precepts and the instruction. I will prescribe regimen for the good of my patients according to my ability and my judgement and never do harm to anyone. To please no one will I prescribe a deadly drug, nor give advice which may cause his death. But I will preserve the purity of my life and my art. I will not cut for stone, even for patients in whom the disease is manifest; I will leave this operation to be performed by practitioners. In every house where I come I will enter only for the good of my patients, keeping myself far from all intentional ill-doing and all seduction, and especially from the pleasures of love with women or with men, be they free or slaves. All that may come to my knowledge in the exercise of my profession or outside of my profession or in daily commerce with men, which ought not to be spread abroad, I will keep secret and will never reveal. If I keep this oath faithfully, may I enjoy life and practice my art, respected by all men and in all times; but if I swerve from it or violate it, may the reverse be my lot."

ACKNOWLEDGEMENTS

We, the editors of the Gray Matter 1983 would like to express our gratitude to the following for their efforts in the production of this publication: J.B. Edwards, who always had the answers; the staff of Hunter Publishing for the wonderful job they have done from cover to cover; the Audio Visual Department for their photographic work; the staff of the Office of Student Affairs for always providing the appropriate fact, list, name or word of encouragement as needed; Lena White in Information and Publications for finding us pictures; the entire Gray Matter staff for their dedication and hard work and the members of the Class of 1983 for their contributions. Our special thanks go to our "ghost" editor Marty Lantelme.

We hope this yearbook embodies the spirit of the Class of 1983 and that whenever you glance through it you will do so with fond memories of the people and times captured herein.

A GOOD EDUCATION
IS SOMETHING YOU CAN
ALWAYS BANK ON.

It's the basis for everything you'll do and be for the rest of your life. The cornerstone of your career, and the foundation of your future. And a good education is more important today than ever before. At First Union we know that it's hard work.

But we know too, that nothing good comes easy.
